RAPID RENO *mate*

This is what reno dreams are made of! 'A renovator's best mate'

There's a ground-breaking new app on the renovation scene and Aussie renovators are going CRAZY about it!

Rapid Reno Mate™ is a FREE app for iPhone and Android that's answering the prayers of renovators all over the country by literally putting a one-stop-renovating-shop into the palms of their hands.

IT DOES EVERYTHING, AND I MEAN EVERYTHING

Rapid Reno Mate™ isn't just a virtual styling app; it can actually track your projects, budget, appointments, materials and styling products. You can keep a record of your measurements, paint colours and upload your before and after photos to track your progress. You can even shop for products like tiles and carpet straight from the app – it's never been easier to start a home renovation!

CREATED BY RENO QUEEN NAOMI FINDLAY

Rapid Renovation expert and renowned home stylist, Naomi Findlay created the app being dubbed as the 'renovator's best mate' for people renovating at all levels.

"There's never been more people renovating their homes or investment properties in Australia than there is now. I recognised a massive gap in the market and used my experience to create an app that does absolutely everything!" said Naomi, who has renovated over 110 properties and currently teaches hundreds of people how to renovate for wealth across the country.

Rapid Reno Mate™ is free to download from the App Store and Google Play now! If you want to be Australia's luckiest renovator, visit www.rapidrenomate.com to find out more about the competition.
